POMPEII TOUR

Discover the ancient archaeological site of Pompeii by taking advantage of this private sightseeing tour. The tour starts from Porta Marina, so called because it is in the direction of the sea. This door, which looks almost like a tower in the ancient city walls, used to have two passages: one for pedestrians, the other for animals and light vehicles. In one of its alcoves there is Minerva's earthenware statue, the protector of the door. Near the door, there was the Suburban Villa of Porta Marina, an imperial residence with frescoes in Pompeian style (20 BC - 45DC), with an Egyptian design. Just outside the door there are the Suburban Spas, open to the public in 2002, featuring a peculiar dressing room, frescoed by erotic pictures that probably served as a placeholder for prostitution activities provided to customers.

In Via Marina lies the Temple of Venus built by Silla (80 BC), given his particular devotion to the goddess. To the left, always on the same trajectory, the Apollo Temple stands, consisting of a porch with forty-eight columns.

POMPEII + VESUVIUS TOUR

Discover the ancient archaeological site of Pompeii and then climb up the Vesuvius by taking advantage of this private sightseeing tour.

We recommend that you first visit the excavations of Pompeii, then take a break while enjoying a delicious lunch in a place suggested by our driver if you want to and then go on climbing to Mount Vesuvius, the only active volcano in Europe, to its steaming summit to enjoy panoramic views of the Bay of Naples.

You will attend a moderate uphill walk up to the volcano accompanied by your guide. Once you reach the top of 1,200 meters, you will be rewarded with breathtaking panoramic views. It will be possible to look inside the crater and see the steam coming out of the sleeping, but still active, volcano! If you do not want to climb to the top, there is a stop where you can wait for your group, but believe me, the walk is worth the effort.

PAESTUM + BALLOON TOUR

Spend the day in a different way and have a unique feeling you never experienced before with a balloon tour by visiting the archaeological area of Paestum from the sky.

The departure is scheduled in the morning to reach first and foremost a local Mozzarella farm where you will see workers producing mozzarella cheese and at the end you will have the chance to taste some freshly made mozzarella!

The tour will then continue to the lovely archaeological area of Paestum with its temples. Paestum boasts three Doric Temples of the V Century BF: the Temple of Neptune, the Basilica and the Temple of Ceres, that stand in the city. The Temple of Neptune can be compared, because of its imposing magnificence, to the Parthenon.

After the archaeological tour of Paestum, it's time for the Balloon Tour, a truly unique experience where you will admire the beauty of the territory from above for one hour in a hot-air balloon.

PARAGLIDING TOUR

Try this unique experience at least once in your life, fly in the blue sky capturing unique images that you will always bring in your heart. You will be surprised to discover that flying is, yes, sport and adventure, but above all emotion and freedom.

A new experience not to be missed for the thrill lovers at Capaccio-Paestum, a tour full of adventure and emotion. "Paragliding may seem dangerous, but it is the easiest and most natural way to ride the wind. Light, for about half an hour, driven by the wind like birds and without the risk of the engine jamming." With the instructor-guide the experience is certainly relaxing and exciting at the same time: "The fantastic landscape, the feeling of freedom will inebriate every fiber of your body, showing you the beauty of life seen from above! It's an unique experience".

A hiker with a backpack is seen from behind, standing on a rocky path. The path leads down a steep, green hillside towards a blue sea. In the distance, a small white boat is visible on the water, and a small island can be seen on the horizon. The sky is clear and blue.

PATHS OF GODS TOUR

Take a walk with the gods on the “Sentiero degli Dei”. Travel back in time to experience the glorious splendors of Ancient Greece!

The Path of the gods, known as the “Sentiero degli Dei” in Italian, is one of the most serene and beautiful hikes in Europe.

The ancient Greeks, who first came here over 2000 years ago, thought that the cliffs were so high you could practically reach out and touch the gods on Mt. Olympus. Walking on the Path of the Gods will be one of the most memorable experiences you’ll ever have. The sweeping vistas along the path provide an array of breathtaking views of the sea below and the island of Capri in the distance.

After a stop for a picnic lunch and numerous photo opportunities along the way you’ll have a full day’s worth of activities and wonderful memories.

A view of the Amalfi Coast at dusk. The sky is a deep blue, and the sea is calm. In the foreground, a large, ornate dome of a church is visible, illuminated by warm lights. The background shows a cluster of colorful buildings built into a steep cliffside, with lights glowing from the windows and balconies. Several small boats are anchored in the bay.

AMALFI COAST TOUR

The tour includes:

STEP1: AMALFI

Amalfi is one of the most historic towns along the Amalfi Coast, having had a glorious history as a maritime republic whose status joined the ranks of coastal powerhouses like Pisa, Venice and Genova. It was a trade bridge between the Byzantine and western worlds for centuries. Let’s discover together the beauties of Amalfi, the famous monuments, the Cathedral dedicated to St. Andrew, a truly beautiful structure. Inside there is the hidden Cloister of Paradise, dating to 1266, with a forest of columns, Arabesque arches and an amazing fresco. The crypt is highly decorated and the Civic Museum and the Ancient Arsenals are worth a visit too. The Emerald Grotto is one of Amalfi’s natural wonders in Conca dei Marini. It emits an eerie emerald hue that comes from its depths thanks to an underwater crevice that reflects sunlight.

AMALFI COAST TOUR

STEP2: RAVELLO

Ravello is a rural village unspoilt by tourism, perched on top of a mountain cliff situated above Amalfi and Minori. It is famous for its breath-taking views and ancient monuments, best known for the gardens of Villa Cimbrone and Villa Rufolo. In high season, these gardens are rich in sweet scents of blooming flowers, shadows of flora and lemons fragrance. There are also many classical music concerts held in the gardens of Villa Rufolo, located just off the main square of Ravello.

Apart from the main cathedral, also situated in the square there is a history museum in the basement of the cathedral. Along the narrow arches of Via Roma you will find a few small boutiques and souvenir shops.

AMALFI COAST TOUR

STEP3: POSITANO

One of the most accessible villages along the Amalfi Coast, Positano.

The town is a photographer's dream, painting a dazzling white step down the impossibly steep hillside to a pebble beach lapped by brilliant blue water.

Driving down through Positano descending the winding one-way road, bypassing many local restaurants, leads to the heart of the town – the busy central Piazza dei Mulini connected to a narrow downhill path and some occasional flights of steps that lead to the seafront. These streets also lead to the cathedral, shops selling ceramics, lemons, shoes and “Positano fashion” clothing.
